Berlin.-Town Clerk Arthur L. Weedlitical parties' expenditures in the past nen. James J. Fitzsimmons, den eader, reports \$78 spent, mostly for omobile hire

Hamden.-A spectacular fire 6 a large frame rooming house on the Reb-ert Neebit farm, threatened the many cattle buildings at the farm in Benham street, and gave much hard work to the firemen of the Whitneyville, Righwood and Humphrey companies, the fire doing damage to the extent of arrors

1922 EXPORTS OF REFINED SUGAR BREAK ALL BROWNS The world is increasing its deper oon the United States for ref Our exports of refined sugar in the our rent catendar year, says the Thack Rocord of The National City Back of New York, will far exceed these of earlier year in the history of our reflect and export trade. In ract, the quantity of refined angar exported in the seven months of the current year for which we have now a record, is greater which we have now full year preceding, and is than in any full year preceding, 30 times as much as in the year per

the opening of the war. Prior to the war, says the Truck secord, when Europe was pred Record, when Europe was producing all of its own sugar requirements from beets, our exports of refined sugar with extremely small, amounting is the year lumedistely pressiing the war, the edecader year 1912, to only \$2,000,000 pounds with a value of less than \$2,000,000. In 1814, with the war employed beet precision area of Europe, Results, Germany, Austria-Hungary and in a less of degree France and Belgiam, our exports of refined sugar amounted to \$95,000,000 pounds or rearly eight times as ports of refined sugar amounted to 29%, 000,000 pounds or nearly eight times as much as in the year immediately pressing its opening. In 1915 the total accused to 265,000,000 pounds. In 1915 1.57%, 000,000, in 1917 1.011,000,000, in 1919 1.475,000,000, dropping to a little less than 1.000,000,000 in 1920 and 1931 but anormously increasing in 1922, so that the total for the asset months for which the total for the seven months for which we have now a record is three times as much as in the same period of the preceding year and actually more chan in any full year since we came to the from as an exporter of refined sugar. mating the exports for the remainder of the calendar year upon the figures for the latest months, it seems quite apparthat our total exports ending with next December will be two and a helf billion possess as the former high record of one and on-half billions in 1916 and 1919. In the nine years since the beginning of the war, our exports of refined many bases aggregated 9,371,000,000 pounds, valued 9,371,000,000 pounds, valu at \$574,000,000, while in the 20 preceding the war the grand total only \$25,000,000 pounds, valued

only 525,000,000 pounds, \$25,000,000.

Three-fourths of this big experience of refined sugar goes to Europe, formerly produced all the sugar with it required. Of the 1,690,000,000 possils experted in the seven months exists with July, 1922, which far exceeds the of any similar period in the history of any similar period in the history of the seven months. of any similar period in the history of our export trade, 1,32,000,000 or \$2 mar-cent, of the total went to Europe and in the single month of July (the labels month for which figures are available), an exceptionally high record month, the quantity experted was 150,000.000 pounds of which 175,000,000 pounds or 58 per cent, went to Europe. The continuity to Great Britain in the seven months ending with July is 562,000,000 points against only 221,000,000 in the seven months of last year; to Prance months of last year; to Present 323,000,000 pounds against 42,000,000 to the like period of last year; and to Germany, formerly the great sagar producing country of Europe, 104,000,000 pounds against practically mothing in the same months of last year.

Practically all of the refined super which we are experting is of Cuban production. While we refine practically all of the came sugar produced in Hawaii and Porto Rico, none of their sugar or that produced within Continental United States is recomposed after refinement and

States is re-exported after refinement and as a consequence practically all of take enormous quantity of refined super which we are now distributing to the world is the product of our next-dor heighbor, Cuba. Lucky or Unlucky Number? There are those who insist that the dread of the number 13 is of modern origin, unknown to the ancients. Can tain it is that many years ago there were those who regarded the number as fortunate. Among them was Pope Gregory the Great, who every morning gave a meal to twelve poor persons. One morning Jesus appeared as a thirteenth member of the company, and thereafter 13 was held to

inchy and blessed number.-New York

Tribune. Metaphysics. The second great discovery of the Greek thinkers was metaphysica. Now-adays metaphysics is revered by some as our noblest effort to reach the highest truth, and scorned by others as the silliest of wild goose chases. I am inclined to rate it, like amoking, as a highly gratifying indulgence to those who like it, and as indulgences go, relatively innocent .- Prof. J. H.

Cotton One of Oldest industries restern mailed to any address on receipt of 10 cents in silver or stamps for our Up-To-Date Fall and Winter 1922-1923 Book of Facilions.
